DETAILED ACTION

Priority

1. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119 (a)-(d). The certified copy has been filed in parent Application No. 08/649,263, filed on May 17, 1996, now U.S. Pat. No. 6,000,732.

Reissue Applications

2. The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP ' 1414) because of the following: multiple errors are described generically and does not specifically describe how the errors are corrected by the amendment. While various misunderstandings on Applicant's part as regards claim interpretation is discussed in paragraph 6 of the declaration, it is not clear what the error in the Patent is or how it is corrected or forms the proper basis for Reissue. There is no unambiguous statement describing the error(s) in the patent. It is suggested that a new oath/declaration be provided that individually lists each error in the patent and describes how each error is corrected by the amendment.

3. Claims 5, 6, 9, 10, and 12-24 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

4. The original patent, or a statement as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.

Allowable Subject Matter

5. Claims 1-4 are allowed.

Response to Arguments

Applicant's arguments filed December 8, 2003 have been fully considered but they are not persuasive.

While various misunderstandings on Applicant's part as regards claim interpretation is discussed in paragraph 6 of the declaration, it is not clear what the error in the Patent is or how it is corrected or forms the proper basis for Reissue. There is no unambiguous statement describing the error(s) in the patent.

Rule 1.175 requires "A STATEMENT THAT THE APPLICANT BELIEVES THE ORIGINAL PATENT TO BE WHOLLY OR PARTLY INOPERATIVE OR INVALID BY REASON OF A DEFECTIVE SPECIFICATION OR DRAWING, OR BY REASON OF THE PATENTEE CLAIMING MORE OR LESS THAN PATENTEE HAD THE RIGHT TO CLAIM IN THE PATENT."

MPEP 1414 suggests the following in order to comply: "In order to satisfy this requirement, a declaration can state: "Applicant believes the original patent to be partly

Art Unit: 3677

inoperative or invalid by reason of a defective specification or drawing." Alternatively, a declaration can state: "Applicant believes the original patent to be partly inoperative or invalid by reason of the patentee claiming more or less than patentee had the right to claim in the patent.".

To expedite prosecution, it is suggested that a new oath/declaration be filed that individually lists each error(s) in the Patent and describes how each error is corrected by Reissue.
